

## Our story so far...

Our Fund started in 1971 as one of Australia's first industry super funds. The MyLifeMyMoney Superannuation Fund, originally known as the Catholic Superannuation Fund, was established for Victorian teachers and staff well before superannuation was a mandatory requirement.

With the guidance of CSF Pty Limited (CSF) as Trustee, the Fund continued to flourish and has become a successful and sophisticated Fund, owned and run by members to provide lifelong financial peace of mind to all Australians.

In 2015, this success provided the opportunity to broaden our services. CSF restructured the Fund into a Master Trust, with divisions called MyLife MySuper and Catholic Super. A Master Trust pools funds from multiple Fund memberships to:

- earn superior investment power
- achieve cost and management efficiencies
- enable tailored fund memberships specific to individual markets.

We are building upon the success of our Fund with super services to other sectors, such as the transport & logistics industry and early education & childcare sector, which ultimately benefits all members.

In addition to providing superannuation, we:

- provide financial planning services through our in-house financial planning group, [MyLife MyAdvice](#)
- have expanded our pension services to all Fund members through [MyLife MyPension](#)
- offer insurance cover through super with [MyLife MyInsurance](#) (issued by TAL Life Limited)
- look for opportunities to merge with other funds, such as [Transport Super](#) as part of MyLife MySuper
- offer a range of banking and loan products through [MyLife MyFinance](#).

This family of super and financial services has grown from a deep sense of obligation and commitment to Australian workers and their employers...

**...and our story has only just begun.**
